Re: Fungal growth and construction defect, deposition

* This list is as complete as my records show; no case in which my expert witness testimony was provided has been intentionally omitted. Note that information concerning only one deposition of mine was available from 1988 (when I began offering expert testimony) to September 1, 1998. Also note that I do not recall the specifics of any trial testimony of mine during that earlier time period (although some such testimony was provided). I testified on behalf of the parties shown in **boldface**.
